### PERSONAL

- Enjoy Brazil  
 - **Spanish culture** and particularly: *Pedro Almodovar's* films. They fascinate me and more essentially the movie: *Tout sur ma mère (All about my mother)* that I find very moving and emotionally strong.  
 - **Travelling and the discovery of different cultures** please me. I have travelled to practically all of continents around the world (except Asia) and can easily say that our world is worth being seen. The countries and people's cultural beauty which surround us, give us the liberty to enrich ourselves intellectually.

**2004/2005:** Second year in the "Escuela Superior de Comercio", Barcelona, Spain, an eight month specialization in international business.
