COACHING

In the last five years, I have been involved in the development of the sport in the U.S.A and Europe. Along with other Pro-Beach Volleyball Players I have dedicated myself to bring my visions of Beach-Volleyball to the future. By growing up next to the pioneers of this sport I have master all the different aspects of this game and found a way to shorten the many years of work through a very precise work ethic. My work and playing experience has given, male and female athletes from all walks of life, the joy of making this incredible game a huge part of their lives."Marcos Macau " became the youngest Pro-Beach Volleyball Player to break into the top 32 of the AVP Association of Volleyball Professionals, at the age of 18 in Ft Myers FL, U.S.A in 1998.
